Pst... Virtual money...

Tjing is the only really fun app in the world for handling pocket money and veckopeng with your kids. Now we are exploring how to make it fun to give and get money during Xmas as well.

Get a pair of scissors and go to [www.tjing.com/xmas](http://www.tjing.com/xmas) to learn more about how this works. Then download the app and have a marvellous Xmas!

Note that these QR codes are unique and can only be scanned one time with a kid wallet in Tjing. A parent wallet can scan the codes multiple times to experience how it all works.
